2. Contents of new contributions of the thesis

Firstly, based on the traditional approach, the thesis has systematically established key theories, doctrines for building and perfecting the law on the rights of ordinary shareholders; build a theoretical basis for the rights of ordinary shareholders, including the concept, characteristics, nature and legal structure of the rights of ordinary shareholders.

Secondly, the thesis assesses the institutional theories about the rights of ordinary shareholders in the Enterprise Law 2014 and the relevant legal provisions. In addition, the thesis analyzes the current status of the law on common shareholders' rights and assesses the legal provisions on the rights of ordinary shareholders in practice, compared to some countries' laws and legal experience for Vietnam law.

Thirdly, the thesis proposes recommendations and specific solutions to improve the law on the rights of common shareholders in a joint stock company.

In summary, the new points of the thesis come from the objective requirements of the topic, based on the research results. It has certain meanings in research and practice.
